Nytec Discusses Carnival Corporation IoT Experience at CES Wearable Technology Summit

Vince Ball, Nytec VP Product Innovation Center, on "Wearables at Work and Play" Panel

What: Panel discussion – Vince Ball, Nytec VP of Product Innovation Center, joins Robin Raskin, founder of Living in Digital Times to look at and discuss smart wearables. Ball will share Nytec's role as a development partner for the design, engineering, and manufacturing management of the overall Internet of Things (IoT) hardware technology and intelligence sensor network platform introduced at CES by Carnival Corporation. In his talk, Ball will review why systems like it will become more prevalent as personalized IOT devices will be implemented across a number of industries from smart city to hospitals, to government.

When: Saturday January 7, 2017; 10:30 – 11:15 am, PT

Where: Venetian, Marcello 4405, Las Vegas, NV

Why: From the business executive to the construction worker, from the world traveler to the homebody, we will be wearing the smartest clothes for the job. And that changes everything.

Who: Panel moderator:

- Robin Raskin, Founder, Living in Digital Times

Panelists:

- Vince Ball, Vice President Product Innovation Center, Nytec Inc.
- Sylvia Heisel, Creative Director, HEiSEL
- Jeremy Wall, Founder & CEO, Lumenus
- Stanley Yang, CEO, NeuroSky, Inc.

Biography: Vincent Ball, Vice President Product Innovation Center, Nytec Inc.

Vince Ball is the visionary force behind Nytec's Product Innovation Center. Over the years, he has expanded Nytec globally, and formed a talented interdisciplinary team to deliver industry-leading innovative consumer lifestyle product design, engineering and manufacturing management solutions for some of the top Fortune 50 companies. Ball leverages his innate ability to combine his deep business experience with over two decades of design, management, and leadership expertise to assure Nytec is able to help clients turn dreams into reality. Prior to joining Nytec, Ball led the design and development of hundreds of consumer hardware and software products while at Microsoft.
